

ANTS CAN

Ants can march
On six small feet
Up a wall
And down the street.
Ants can.

Ants can dig
Down and down
To make a nest
Inside the ground.
Ants can.

Leafcutter ants
cut and carry
leaves back to
their nests.

Ants can smell
Where any ant goes.
They use their feelers
For a nose.
Ants can.

Some other bugs
Can live alone
And call a leaf or
Twig a home.

ANTS CAN'T.
